In Memoriam

Brother Charles Weiss, S.M.

1903 - 1968

Together with two other Marianist brothers, Brother Charles went through the arduous yet exciting process of organizing and founding St. Joseph's in 1935, and remained there during its first seven formative years to teach math and to organize and coach the school's athletic department... and returning to Alameda and St. Joseph's in 1956...

Brother Charles will long be revered and remembered for his devotion to young people, his ideals, and his church, and for his sense of humor, his warm friendship, and perhaps most of all, for his breadth of understanding and his concern for the healthy spiritual, mental, and physical development of his youthful charges...

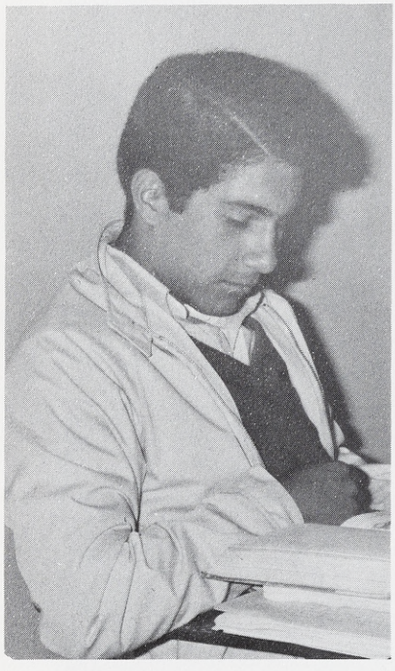
Religion

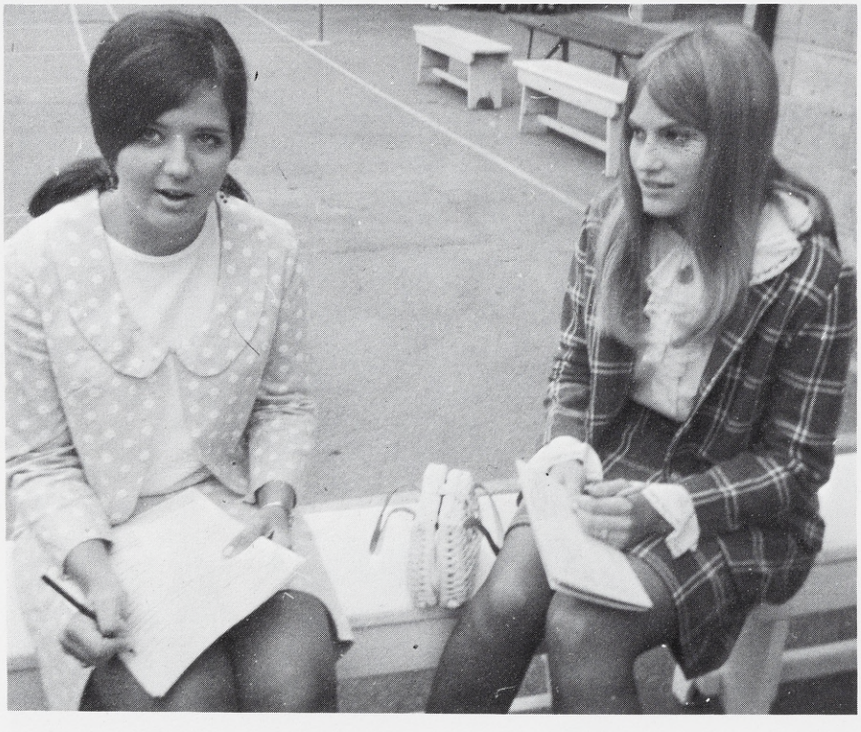


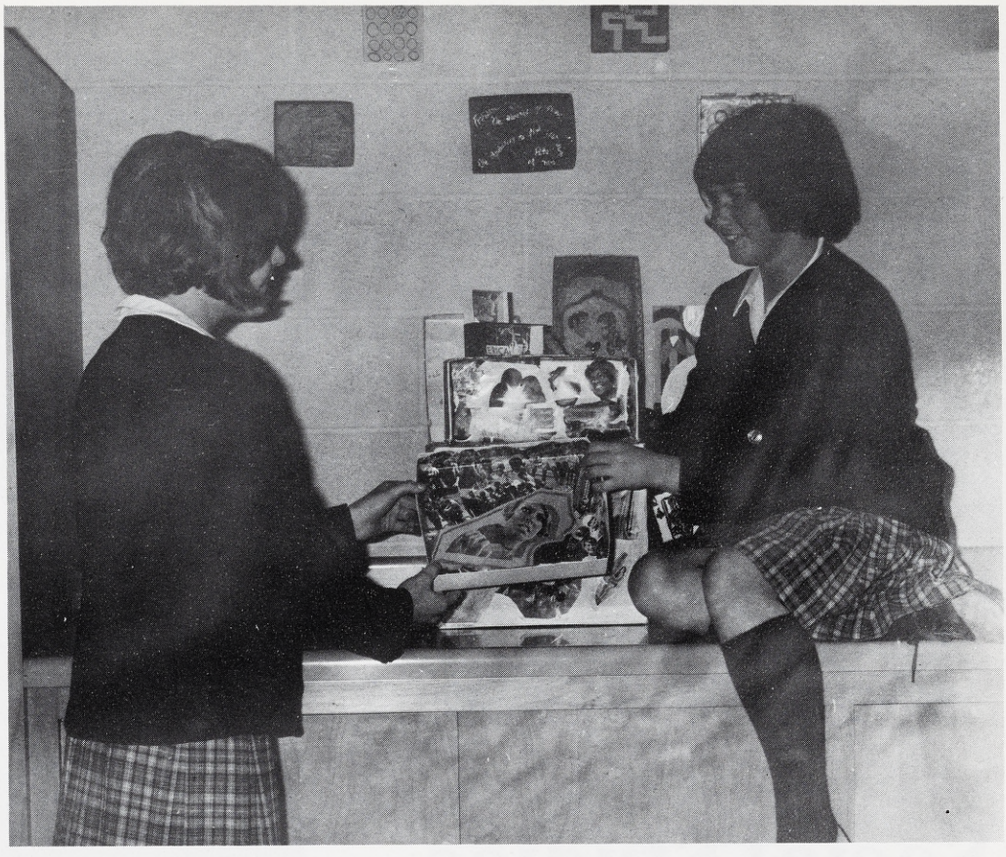
When through one man

A little more love and goodness,

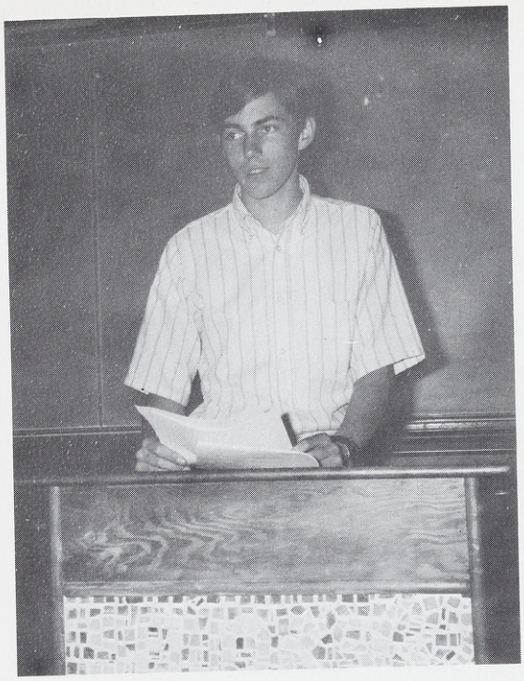
A little more light and truth

Comes into the World,
Then that Man's life has had meaning.





There is no greater reality no greater way to live to the fullest than to look into oneself and see there God as the center and why of all existence. The awareness, the consciousness of life is realized when one sees the reason for a flower, hears the silence of a goldfish, feels the softness of an infant. Because God is at the center of His creatures we only have to look inside ourselves, to find Him.



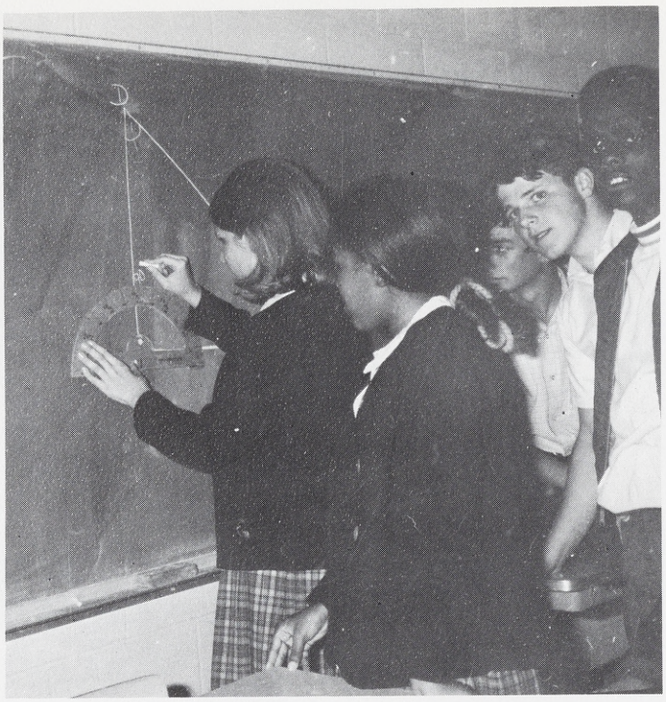
Social Studies

Because of the modular system, upperclassmen were able to broaden their perspective of man and the world community through the studies of Economics, Civics, African, Asian, and Russian history.

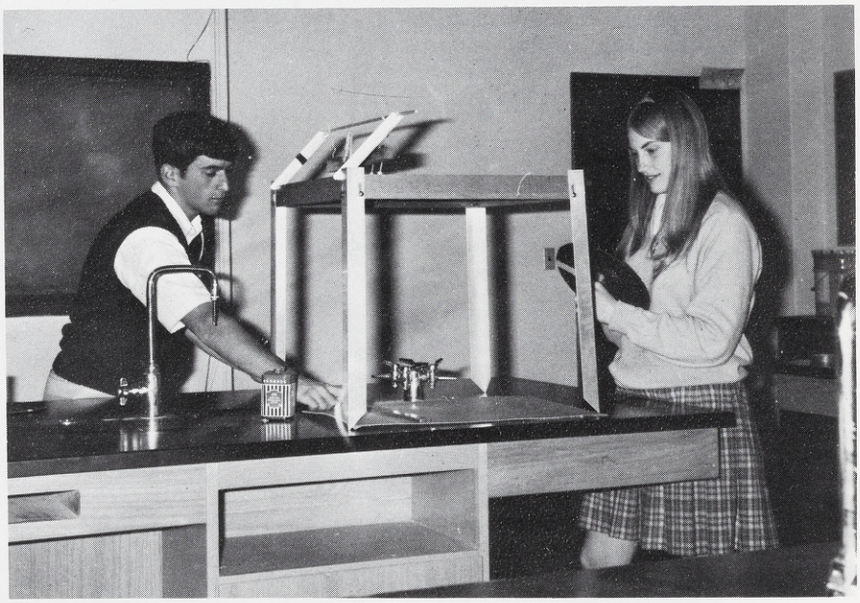
Exchange Student Pauline Zuniga gives an insight to the people of Chile.

Representing Brazzaville, Social Studies students attend the Model UN at the University of California in Berkeley.

Mathematics



a discovery of order

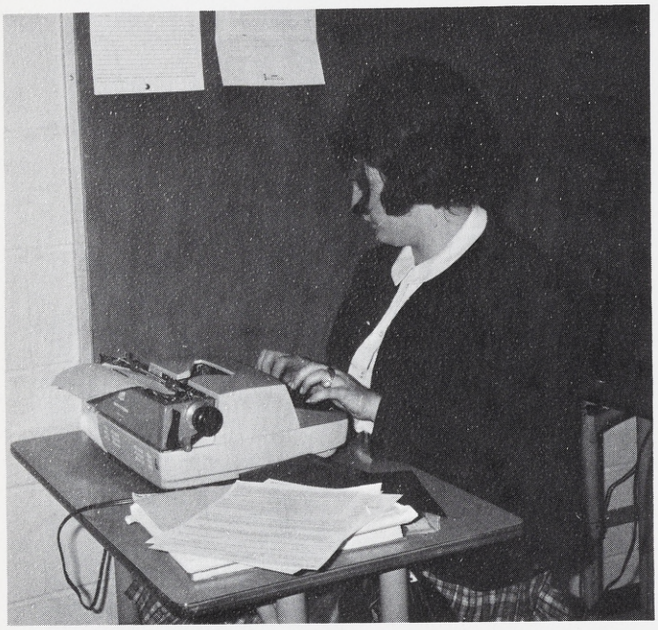


In the search for order, students discover math as the solution. Numbers, theorems, radicals, graphs--their logic gives us a discipline of thought. Slide rules, logs, signs--by using them, learning from them, we are inclined to think more rationally.

Science is learning the secret heart of things. It is, in itself, adventure, discovery, and reasoning; reasons to be alive, reasons to explore.

Science

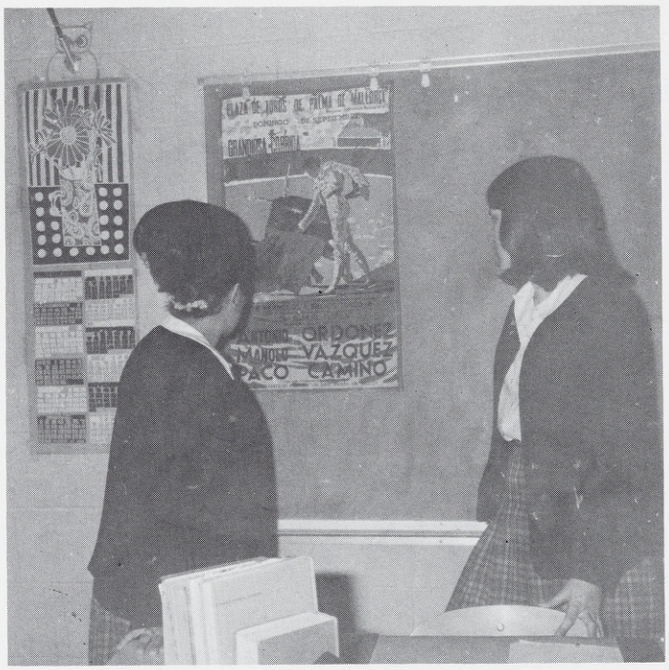
Business



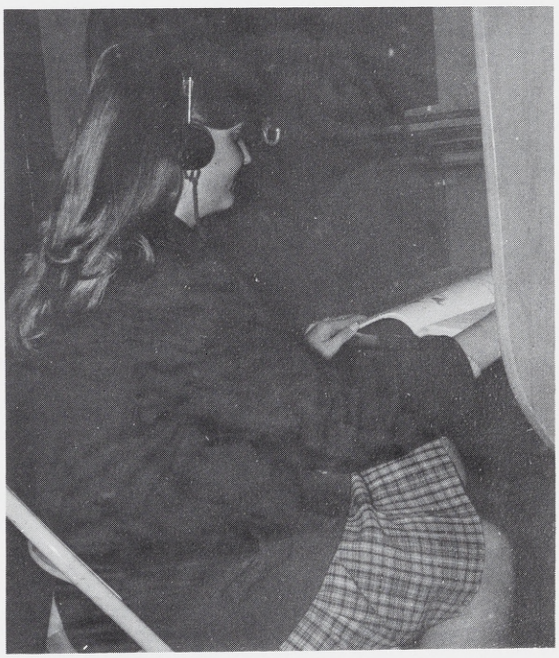
We are given a better knowledge of the business world and the qualities needed in successful career personnel.

The Business Department offers courses in bookkeeping, typing, office practice, shorthand and business finance.

Language



Language, a definite passageway to the better knowledge of man's nature, is a common basis by which man expresses his thoughts. Through Spanish, Latin, and French, we view the lives and customs of others more realistically.



English

The study of English helps students understand past, present, and future peoples and places through interpretation of literary works such as Return of the Native, Long Day's Journey into Night, and the Scarlett Letter.

While studying the classical works of Shakespeare, seniors were able to enrich their understanding of Hamlet and Romeo and Juliet by seeing the Stage Productions.

All the little worm things, the love things and hate things, Heaven and Hell things bore their way through the windy corridors of your being to bring you new awareness through poetry.

Varsity Baseball

The 1969 Pilot Baseball Varsity at the time of this publication won their Catholic Athletic League opener over Salesian, 7-0, behind the nifty two-hit pitching of Jr. Paul Phelps and the 10 hit attack of his teammates, highlighted by a 350 ft. homerun off the bat of Sr. John Repetto.

After a slow start in the pre-league games due to experimentation and a late start for the basketballers the Pilots are beginning to play more consistently in their quest for the 1969 Baseball playoffs. The record for the practice games was 2-4-1, while the "B" team comprised of freshmen and Varsity veterans compiled an 0-3 record.

The Pilots hope to draw from their experience in 1968 All-League selection Rich Lane, who will be dividing duties between first base and the mound, and from honorable mentions at the keystone, John Repetto and Mike Freccero. Jr. Paul Phelps will be the number one moundsman, while Sr. Brad Rankin and Jr. Steve Bellusa will divide the catching and right field duties. Jr. Ray Ratto rounds out the infield at third, while Sr. Joe Gallagher patrols left-field, Jr. Glenn Endres and Sr. Joe Delsol cover the center-field territory. Jr. Roger Balvin backs up Freccero at second and Sophomores Bill Leita and Tom Steuckert give the pitching its necessary relief backing. Compiling statistics for the second year is the able Sophomore, Ray Ratto.

Have fun this summer but don't do anything I wouldn't do (which in plain simple English means DO WHATEVER YOU WANT TO DO!!) Good luck in the future and may you find love and happiness wherever you go and in whatever you do, ok?

Love always,
